Anla Harpanda

Full Stack Web Developer | UI/UX Designer | Vector & Caricature
Illustrator with 300+ Clients

Padang, Sumatera Barat, Indonesia

Ringkasan

My expertise spans the full stack: Express.js, Next.js, Laravel, Vue.js, and React form the backbone of my development arsenal, allowing me to craft seamless experiences from server to client. Whether it's building robust RESTful APIs with Express, developing high-performance SSR applications with Next.js, architecting scalable backends with Laravel, or creating dynamic interfaces with Vue and React I thrive in the intersection of these technologies.

Most recently, I led a team of four as Project Manager for PEPSIKUBURGER, a government platform under DP3AP2KB West Sumatra Province that serves over 5,000 women in economic empowerment programs. Managing the full lifecycle from planning to deployment taught me that great technology isn't just about clean code it's about understanding user needs, coordinating cross-functional teams, and delivering impact at scale. My AWS certification and UI/UX design skills ensure I build applications that are not only technically sound but also cloud-optimized and user-centered.

What makes my approach unique is the creative lens I bring to development. As founder of anla.id, I've completed 300+ illustration projects, which sharpened my eye for design details and taught me the art of translating client visions into tangible deliverables. This blend of technical precision and creative problem-solving enables me to build products that are both functionally robust and visually compelling. Currently pursuing Information Technology at Politeknik Negeri Padang while continuously expanding my full-stack capabilities. Let's connect if you're looking for a developer who can turn complex technical challenges into elegant, scalable solutions.

Pengalaman

Pemerintah Provinsi Sumatera Barat

Project Manager

Maret 2025 - Juli 2025 (5 bulan)

Padang, Sumatera Barat, Indonesia

Led a team of four in the development of PEPSIKUBURGER, a government website under DP3AP2KB (Dinas Pemberdayaan Perempuan dan Perlindungan Anak, Pengendalian Penduduk, dan Keluarga Berencana), West Sumatra Province, Indonesia. The project ran under contract from March to July 2025, covering over 5,000 women participants in economic empowerment training programs. I managed the entire process from planning to deployment, coordinated the team, liaised with government stakeholders, and ensured the project was delivered on time while meeting accessibility, usability, and data management standards.

Shopee

Freelance Illustrator

Maret 2022 - Desember 2024 (2 tahun 10 bulan)

Padang, Sumatera Barat, Indonesia

Founder & Freelance Illustrator anla.id (Shopee Brand)

Day-to-day Job Description:

- Specialized in high-quality vector artwork using CorelDRAW and Inkscape.
- Created expressive caricature illustrations using Krita for diverse client needs.
- Managed full project lifecycle independently — from concept development to final delivery.
- Ensured consistent visual quality, timely execution, and effective client communication.
